40 to 60 tons	2 500,00
over 60 tons	3 000,00

MTOW – maximal take-off weight

These rates do not apply to participation (parking) of balloons.

The leasing cost of static display area includes:

- An area at the static display (concrete or ground);
- Fire safety provision (fire extinguishers) in accordance with acting regulations;
- Grounding loop provision;
- Aircraft slots marking;
- Lighting in nighttime (only for concrete area);
- Support of arrival / departure including towing to / from the allocated aircraft slot.

Tents and other temporary constructions located next to the aircraft slot are payable, a participant should lease outdoor exhibition space for construction (per 1 m²).

A participant must not operate own power units and other ground service equipment without certification and admittance of the airfield chief operator.

A participant gets 10% discount for leasing of an aircraft slot, if he agrees to provide public access to the aircraft cockpit / cabin during the exhibition period (for aircraft over 2 t MTOW).

Participation of aerostats

The following types of aerostats are allowed to participate: rigid airships, hot air balloons, gas balloons, geostats (still air figures). All aerostats are placed on the ground. The parking area depends on the volume of the balloon shell. Prices for the placement of balloons will be published no later than **March 1st, 2019**.

The filling and lifting of the shell of the aircraft, as well as lifting on a leash, are possible at a height of no more than 10 m (according to the level of the balloon gondola), at a wind speed not exceeding 4 m/s, in a calm atmosphere, in the absence of turbulence zones and gusts of wind.

It is prohibited to stay in the basket or gondola of the aerostat for unauthorized persons that are not members of the crew without a written permission by the Organizer.

Participation in Flying Display Program

Aircraft arrival and departure, as well as their flight hours within the framework of the flying display program during the exhibition (27.08 – 01.09, 2019) don't involve extra payments with an exception of additional airfield services ordered by a Participant.

If an aircraft located at the static display area should take part in the flying display program, the aircraft towing from and back to the static display area should be ordered and paid for by a participant. All flights that are not included into the adopted flying display program (familiarizing, training, testing, transportation and other) are made in accordance with acting Regulations of Ramenskoye Airfield and should be paid on the basis of direct contracts with Gromov Flight Research Institute according to their current tariffs. All exhibited aircrafts should depart from the exhibition grounds and static area displays no later than on **September 6, 2019**. In case of delay participant should pay an overstay fee according to the Gromov Flight Research Institute current tariffs.

Permission to participate in the flight and demonstration program

“Aircrafts” are defined as airplanes, helicopters, gliders, photo gliders, lighter than air aircrafts, kites, parachutes, flying airplane models, aviation sport equipment and other equipment for use in airspace (in accordance with Air Traffic Management Rules).

Participants willing to exhibit their aircraft(s) should fill in an application form for aircraft display (for each aircraft). Upon receiving the Application confirmation the participant will be provided with pilot instructions. In order to receive permission for aircraft arrival, exhibition and participation in demonstration flights the participant should submit the following documents (scanned copies):

- Aircraft’s pilot-in-command application for the participation in flights according to the MAKS 2019 program;
- Airworthiness certificate;
- Emergency rescue designation scheme;
- a copy of the document confirming third-party liability insurance in case of damage to the person or property for an insurance amount not lower than the following, depending on the aircraft weight:
 - 2 to 08 tons - 1 000 000 USD;
 - 8 to 30 tons - 5 000 000 USD;
 - 30 to 110 tons - 10 000 000 USD;
 - over 110 tons - 25 000 000 USD;
- life and health insurance certificates of the flight personnel for the case of death or personal injury as a result of an aircraft accident for 75 000 USD for each crew member;
- valid certificate of the pilot and crew members, or a certificate for the right to fly given type(s) of aircraft;
- medical flight admission for each member of the crew;
- description and pattern of the demonstration flight;
- advertising (speaker) text and aircraft details for the demonstration flights’ announcer.

Upon exhibiting the aircraft at the static display the Participant should oversee an installation of an information stand (standard) in the parking area, containing the general info and technical details of the aircraft presented. Participants may rent an information standard in a “technical services” tab in the Participant’s online personal account.

Additional requirements to static display and demonstration program participants

In order to avoid emergencies in the work of the Ramenskoye airfield and in order to ensure the safety of the flight program and the regularity of aircraft departures, Aviasalon JSC, organizes the following activities without an application from the Participant:

- Evacuation, removing or relocation the Participant's damaged or defect aircraft from the airfield;
- In case of contamination of airfield pavements - a set of measures and activities regulated by clause 5.1.12 of the NTERAT GA-93, including work on the elimination of contamination of the airfield pavement. Investigations regarding these accidents are conducted in accordance with the regulatory documents of the Ramenskoye airfield and relevant Statements. The Participant

receives corresponding bills based on the Statements. The Participant is obliged to pay these bills within 5 (five) days from the date of their issue.

Upon the arrival the aircraft crew should submit one copy of the Consolidated boot list (CBL). In case of an absent or unclear CBL the cost of aircraft maintenance services (upon arrival) is calculated according to the projected full commercial load of the aircraft.

The Participant has the right to appoint a representative of the Participant, who is authorized to represent company during the exhibition on the territory of the Ramenskoye airfield, as well as to sign any documents arising in the process of the parties fulfilling their obligations when rendering services. The Participant is obliged to notify the Organizer of the appointment of the Representative of the Participant and attach a duly certified copy of the document assigning the power of attorney to the Representative. The Participant also confirms that pilots-in-command and other members of the crew of the aircraft have all the powers of the representative of the Participant regardless of whether they have the power of attorney from the Participant.

If for reasons beyond the Organizer's control the demonstration flight program is terminated or reduced, the costs incurred by the Participant are not reimbursed.

Demonstration of exhibits

Order of obtaining permission to demonstration of exhibits

Exhibits are allowed to be demonstrated at the exhibition upon meeting the following requirements:

- matching the theme of the exhibition;
- being listed as a Participant in the Lists of exhibits (form 1.0, 1.1, 2.0);
- having been approved by the Organizer and included into the Lists of produce allowed to be demonstrated at the exhibition.

The Participant has to send the Organizer in due time the information about the exhibits (as well as natural samples, models, advertizing materials and video records) that are to be presented at an exhibition, as follows:

- scanned copies of the lists of exhibits along with a filled form in a .doc or .docx format (MS Word document) that should be sent by the Participant to e-mail of the Organizer (tatiana_i@aviasalon.com, responsible person: Tatyana Lazutkina, t.: +7 (495) 787-66-51, ext. 316);
- signed and stamped copies of the lists of exhibits should also be sent by mail to the address of the Organizer: 140185, Moscow Region, Zhukovsky, Gromov Flight Research Institute, JSC Aviasalon;
- Participant has to have with himself another set of copies of said list at the time of applying for permission to transport the produce to and within the territory of the exhibition.

Military exhibits

Military exhibits of the foreign Participants are subject to licensing. For the purpose of simplification of customs procedures and timely obtaining the license the Participant needs to provide the list of exhibits of military and dual purpose in a form 3.0 or to fill and sign the obligation that his exposition doesn't contain military product samples.

The deadline of providing said lists (forms 3.0) - no later than **May 24, 2019**.

General rules of demonstration of the exhibits

Exhibits are located within the exhibition area and/or in the static display area rented by the Participant. Exhibits can't be moved to other exhibition areas without the approval of the Organizer. Any movements of exhibits should be performed no later than at **20:00, August 26**.

Exhibits, including the aircraft shouldn't leave their designated places of exhibiting until the end of the exhibition without a written permission of the Organizer.

Items forbidden for demonstration: military-grade armaments, ammunition, explosives, combustible and radioactive materials. The separate tanks containing fuel or air-fuel mix can't be exhibited or transported within the exhibition zone as well as in the aircraft static display area. Movement of vehicles of participants within the static display area during the open hours of the exhibition isn't allowed.

All exhibits demonstrated in the open exhibition area and/or static display area have to be supplied with information plates with the name and the description of the exhibit in Russian and English languages.

The Organizer has a right to refuse the Participant to demonstrate the products not detailed in the corresponding lists (form 1.0, 1.1, 2.0, 3.0),

The Organizer can insist on removal of exhibits if they aren't included in the corresponding lists, can be dangerous to people around or are incompatible with the exhibition purposes. If the Participant doesn't fulfill this requirement, the Organizer has the right to remove such exhibits by its own efforts at the expense of the Participant, undertaking if needed the measures stated by law and within the present General Conditions of Participation.
